

The Aro Planter stands out for its robust appearance as well as for its simple yet smart design. The stainless steel band breaks with the rest of the planter's appearance to give it a modern and smart touch.

Planter made of steel treated with Ferrus, a protective process that guarantees high resistance to corrosion.

The Ferrus treatment consists of three layers applied after shot cleaning all impurities: an electrolytic bath, an epoxy coating and a forge black polyester paint coating.

Recommended anchoring: free-standing.
